Asset Tracking
Your Asset. Your Rules.

Keep an eye on your valuable assets, such as construction machinery, trailers, or any equipment of your choice. Rig your assets by installing our straightforward software to your computer, tablet, or phone, and you will never lose control again.

Additional readings, such as hours of work, temperature readings, power take-offs, and others. Set up geofences to get alerts if equipment leaves restricted areas, pull reports to check usage history, and help the police retrieve your assets if stolen.
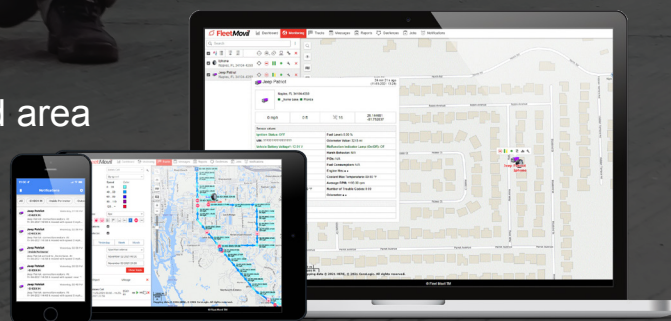

Transparency

• Every asset is accounted for

• Online map with the ability to backtrack asset's activities

• Fault-proof information on working hours and PTOs

Efficiency

• Live data available on any device of your choice

• Convenient operation planning

• Informed client communication

Security

• Get notified if your asset leaves designated area

• Easy and highly probable retrieval

• Protection of your employees
