FM Lite Box

The FM Lite Box is purpose-built for high volume manufacturing, prioritizing exceptional cellular and GPS performance. It is an ideal choice for cost-sensitive applications that demand excellent value without compromising on features or quality.

The FM Lite Box packs a punch in a small footprint.

Event Detection

The FM Lite Box simplifies vehicle journey reporting by capturing data on time, distance, travel direction, starts, stops, GPS loss, low battery, and input state changes.

Tracking Analysis

The FM Lite Box is an advanced vehicle tracking system with a compact design and enhanced GPS technology, delivering improved performance and reduced TTFF (time to first fix).
